## Social media marketing

SMM is a type of digital marketing that implements lots of social media networks in order to achieve communication with your consumers and branding goals. You can interact your customers with brands through social media. Your strong social media presence is the key to tap into your customers and audience interest.

AGG offers various services within social media medium, we can make and manage your **Facebook, Twitter, LinkedIn, Pinterest, Youtube, Google +, Tumblr, Digg, Reddit** and many more as per your requirement

## SEO (Search Engine Optimization)

The only process and solution to get **Organic Traffic, Natural Traffic** and effecting your website or web page visibility on Various **search engines** like **Google, Bing, Yahoo** and many more. Where your web pages and contents as such local listings, Pictures, Videos shown as rank based relevant user consideration and required searching according to their keywords and pahrases.

This is purely online digital marketing or we can say internet marketing as well. With SEO we basically consider that how **Search Engine** works and its effect, usually peoples ask what in their required terms and criteria although we can target out desired audience and then start optimizing keywords of their mentality and choices.

Look forward to **work for you...**
